SANITARY DISTRICT OF CHICAGO.

TO CONTRACTORS.

Sealed proposals, addressed to the Board of Trustees of the Sanitary District of Chicago, and endorsed "Proposals for supplying and erecting certain bridge substructure along the line of the Main Drainage Channel," will be received by the clerk of said sanitary district, Room 1110, Security Building, Chicago, Ill., until 12 m. (standard time) of Wednesday, the 8th day of September, A. D. 1897, and will be publicly opened by said Board of Trustees at the regular meeting held that day, or at a special meeting held for that purpose.

The bridges for which the said tenders are invited are four in number, and their sites are as follows:

Chicago, Madison & Northern R. R. bridge near east end of contract section "N."

Atchison, Topeka & Santa Fe Railway bridge at west end of contract section "N."

Atchison, Topeka & Santa Fe Railway bridge near east end of contract section "G."

Chicago & Calumet Terminal Railway bridge near west end of contract section "E."

The work for which said tenders are invited is the furnishing, delivering and building in place one (1) center pier, and two (2) wing abutments for each bridge, as per plans and specifications to be furnished by the chief engineer.

Each bridge will be treated as a single contract in canvassing proposals and making awards.

Each bid must be accompanied by a certified check or cash to the amount of $1,000.

All certified checks must be drawn on some responsible bank doing business in the city of Chicago, and be made payable to the order of the Clerk of the Sanitary District of Chicago. Said amount of $1,000 will be held by the Sanitary District until all of said bids have been canvassed and the contract awarded and signed, the return of said check or cash being conditioned upon any bidder to whom the award of said work may be made appearing within ten (10) days after notice of such award being given, with bondsmen, and executing a contract with the Sanitary District for the work so awarded, and giving a bond satisfactory to the said Board of Trustees for the fulfilment of the same in the amount of $5,000.

All bids must be made upon the blank forms furnished by the Sanitary District.

No bids will be considered unless the party making it shall furnish evidence satisfactory to the Board of Trustees of his experience and ability in this class of work, and that he can control sufficient capital to enable him successfully to prosecute same in case the contract therefor shall be awarded him.

Bidders are required to state in their bids their individual names and places of residence in full.

Specifications and plans may be obtained at the office of the chief engineer, Room 1010 Security Building, Chicago, Ill., on or after Aug. 9, 1897.

The said Board of Trustees reserves the right to reject any and all bids.

PROPOSALS FOR DISAPPEARING GUN CARRIAGES. Ordnance Office, War Department, Washington, D.C., July 13, 1897.—Sealed proposals, in duplicate, will be received here until 3 o'clock p. m., Aug. 13, 1897, when they will be publicly opened, for supplying the Ordnance Department, U. S. Army, with 5, more or less, 12-inch Disappearing Gun Carriages, L. F., Model 1896. Bids will be received for all or for part of the foregoing. Information furnished upon application to Brig.-Gen. D. W. FLAGLER, Chief of Ord. 29-4t

SANITARY DISTRICT OF CHICAGO.

TO CONTRACTORS.

Sealed bids, addressed to the Board of Trustees of the Sanitary District of Chicago, will be received by the Clerk of the Sanitary District at Room 1110 Security Building, Chicago, Ill., up to 12 m. (standard time) of Wednesday, Aug. 25, 1897, and will be publicly opened by the said Board of Trustees at the regular meeting, held that day, or at a special meeting called for that purpose.

The work for which said tenders are invited is:

First. The excavation of a channel designated as "The Tail Race," and the building of the embankments, masonry core, highway approaches, and all collateral work necessary or incident to the said Tail Race, as described and specified in the detailed specifications furnished by the engineer.

Second. The construction of a "Weir Dam" of masonry and the work collateral thereto, as described in the detailed specifications furnished by the engineer.

The work called for under these two heads may be covered in one bid, or the bidder may bid upon one division of the work only and the Board of Trustees may award all of the work to one bidder or may award the Tail Race to one bidder and the Weir Dam to another; reserving the right, however, to reject any and all bids.

Each bid shall be accompanied by a certified check or cash to the amount of $3,000 for each division of the work covered by the bid ($6,000 for the entire work).

All certified checks must be drawn on some responsible bank doing business in the city of Chicago, and be made payable to the order of the Clerk of the Sanitary District of Chicago. Said amount of $3,000 for each division of the work will be held by the Sanitary District until all of said bids have been canvassed and the contract awarded and signed, the return of said check or cash being conditioned upon any bidder to whom the award of said work may be made appearing within ten days after notice of such award being given, with bondsmen, and executing a contract with the Sanitary District for the work so awarded, and giving a bond satisfactory to the said Board of Trustees for the fulfillment of the same in the amount of $60,000 for the Tail Race, and $15,000 for the Weir Dam.

All bids must be made upon blank forms furnished by the Sanitary District, and must give the price for each separate class of work or material called for by the specifications.

The bids will be compared on the basis of the prices bid per cubic yard applied to the engineer's approximate estimate of quantities added to the lump sum price for any portion of the work upon which a lump sum may be asked.

No bid will be considered unless the party making it shall furnish evidence satisfactory to the Board of Trustees of his experience and ability in this class of work, and that he can control sufficient capital to enable him successfully to prosecute same in case the contract therefor shall be awarded to him.

Bidders are required to state in their bids their individual names and places of residence in full.

Specifications and plans may be seen at the office of the Chief Engineer, Room 1010 Security Building, Chicago, Ill.

The said Board of Trustees reserves the right to reject any and all bids.

PUMPING ENGINE FOR FOURTEENTH STREET PUMPING STATION.

OFFICE OF THE DEPARTMENT OF PUBLIC WORKS, CHICAGO, July 30, 1897.

Sealed proposals will be received by the City of Chicago until 11 a. m., Wednesday, September 1, 1897, for furnishing and erecting on the foundations to be constructed at the 14th Street Pumping Station in the City of Chicago, one vertical condensing triple expansion pumping engine of thirty (30) million gallons capacity per twenty-four hours, with a total lift of one hundred and fifty (150) feet, together with necessary boilers and all accessories and appurtenances.

According to plans and specifications on file in the office of the Department of Public Works.

Proposals must be made out upon blanks furnished at said office, and be addressed to said Department, indorsed "Proposals for new pumping engine for 14th Street Pumping Station," and be accompanied with Eight Thousand ($8,000) Dollars in money, or a certified check for the same amount on some responsible bank doing business in the City of Chicago, and made payable to the order of the Commissioner of Public Works.

The Commissioner of Public Works reserves the right to reject any or all bids.

Due consideration will be given to general merits of design, durability of construction, economy of operation and maintenance, facility for repairs and proven performance and record of similar works in actual service elsewhere.

No proposal will be considered unless the party offering it shall furnish evidence satisfactory to the Commissioner of Public Works of his ability, and that he has the necessary facilities, together with sufficient pecuniary resources, to fulfil the conditions of the contract and specifications, provided such contract should be awarded to him.

Companies or firms bidding must give the individual names as well as the name of the firm with their address.

Bids will not be received after the hour above-named.

PUMPING ENGINE FOR SALE.

FOR SALE.—One five-million-gallon, Worthington, high-duty pumping engine.

This engine has been used at the Eastern Pumping Station of the Baltimore City Water Department since 1892, and is in first-class repair; having been in service up to June 15th, 1897.

The engine was removed as the service required a larger engine.

The engine is of the Worthington compound type, with high-duty attachment, and is as good as new; having been carefully cared for.

The engine has given in regular service a duty from 75,000,000 to 85,000,000 foot pounds, pumping 6,500,000 gallons in twenty-four hours.

PUMPING ENGINE FOR 68th ST. PUMPING STATION.

OFFICE OF THE DEPARTMENT OF PUBLIC WORKS, CHICAGO, ILL., August 5, 1897.

Sealed proposals will be received by the City of Chicago until 11 a. m., Monday, Sept. 6, 1897, for furnishing and erecting on the foundations to be constructed at the 68th Street Pumping Station in the City of Chicago, one horizontal compound condensing pumping engine of fourteen (14) million gallons capacity per twenty-four hours, with a total lift of one hundred and fifty (150) feet, together with necessary boilers and all accessories and appurtenances, according to plans and specifications on file in the office of the Department of Public Works of said city.

Proposals must be made out upon blanks furnished at said office, and be addressed to said Department, endorsed "Proposals for New Pumping Engine for 68th Street Pumping Station," and be accompanied with five thousand ($5,000) dollars in money or a certified check for the same amount on some responsible bank doing business in the City of Chicago, and made payable to the order of the Commissioner of Public Works.

The Commissioner of Public Works reserves the right to reject any or all bids. Due consideration will be given to general merits of design, durability of construction, economy of operation and maintenance, facility for repairs and proved performance and record of similar works in actual service elsewhere.

No proposal will be considered unless the party offering it shall furnish evidence satisfactory to the Commissioner of Public Works of his ability, and that he has the necessary facilities, together with sufficient pecuniary resources to fulfil the conditions of the contract and specifications provided such contract should be awarded to him.

Companies or firms bidding will give the individual names as well as the name of the firm with their address.

L. E. McGANN,
32-3t Commissioner of Public Works.

WATER-WORKS AND ELECTRIC LIGHT PLANT.

SCRANTON, MISS.

Sealed proposals will be received by the Board of Mayor and Aldermen at the Mayor's Office, at Scranton, Miss., up to 12 o'clock noon of Monday, August 30th, 1897, for furnishing the materials and constructing a system of water-works and electric lights for said town. There will be required approximately the following:

21,600 feet of 4, 6, 8 and 10-inch cast-iron pipe and 10,000 lbs. specials.
35 double-nozzle fire hydrants, with 4-inch bottom connection and 2½-inch nozzles.
2 10-inch, 2 8-inch, 3 6-inch and 12 4-inch valves and valve boxes.
1 10-inch hydraulic valve.
2 80-HP. return tubular boilers, fittings, etc.
2 boiler feed pumps.
2 duplex combined fire and service pumps, each with a daily capacity of 750,000 gallons.
1 steel stand-pipe, 10 feet by 120 feet and foundation for same.
Electric plant covering twenty 1,200-c. p. arc lamps and five hundred 16-c. p. incandescent lights, with 100-HP. direct connected automatic engine and 50-K-W. dynamo, etc.
Galvanized corrugated steel power house and foundations.

Bids will be received for furnishing any of the materials above, or for constructing any part of the work, or for furnishing everything and constructing the works complete; bids will also be received for payment to be made either in cash or in the bonds which are to be issued for the purpose of raising funds to construct the above plants.

No bid will be considered unless accompanied by a certified check for not less than 3% of the amount of the bid, provided no check be for less than $150; said check to be made payable to the order of the Treasurer of the Town of Scranton, Miss., to be forfeited in case the contractor fails to enter into the contract awarded him and file a satisfactory bond, within 10 days after notice has been given him that he has been awarded a contract.

Plans and specifications may be seen at the office of the Engineer, Robt. R. Zell, Godchaux Building, New Orleans, La., and specifications and blank forms of proposals may be obtained by addressing J. D. Clark, Mayor pro. tem., Scranton, Miss., to whom all proposals and other communications are to be addressed. The right is reserved to reject any or all bids.

W. W. FARNSWORTH, Mayor,
J. D. CLARK, Alderman and Mayor pro tem.,
J. A. MILLER, Alderman,
Water and Light Committee of the Town Council.
